

M.G. Car Club Y Type Register
Registrar's Report to the A.G.M. held on 13 th. March 2011

Once again, I am pleased to report that our knowledge of Y Types around the world has continued to grow. During the past year we have gained information on a further 32 cars that were previously unknown to the Register.

Last year I reported that we were able to confirm 1005 cars as 'live' worldwide. This year it is pleasing to report that we are now aware of 1044 cars that have survived the ravages of time and are either on the road or undergoing restoration

Our records show that 154 cars are confirmed 'dead' and have been broken or scrapped and the remainder await classification.

Total number of cars held on the Y Register database

March 2002	March 2003	March 2004	April 2005	March 2006	March 2007	March 2008	March 2009	March 2010	March 2011
1,467	1,510	1,559	1,595	1,624	1,683	1,716	1,740	1769	1801

The accuracy of the information we hold is not always consistent with the current status of individual vehicles. It is possible that, over the period since the Register was formed, some of the cars listed as "live" may no longer be so. On our database, cars are given a "live" designation where information has been received since 1991 (when the Register gained its independence from the T Register). "Live" does not necessarily mean that the car is roadworthy. It may be awaiting or undergoing restoration.

The last membership report from Main Club (August 2010) shows that there are currently 125 Y owners in the U.K. listed as Car Club members (a slight increase over last year) and 17 from overseas. This bears no comparison to the information we hold as much of the content of our records is received from non-club members via our website and from other sources around the world.

The number of owners who are willing to take part in our "Get You Home Scheme" has dropped slightly this year and the number currently participating stands at 96. The latest list was sent out at the end of January, along with an entry form for our Spring Run. We also included a request for owners to visit our website and inform us of any changes in ownership.

In the formative days of the Register, I was tasked to compile a photographic record of cars around the world and I have maintained this record ever since. On a recent visit to club office, I provided their photographic collator with a disc containing 620 photographs of Y types. I have a further 90 to add to this and the work is ongoing as I am regularly receiving photographs for my records and for inclusion on our website.
