

M.G. Car Club Y Type Register

Registrar's Report 4th August 2015

During the past year, we have gained information on a number of cars that were previously unknown to the Register. We now hold information on a total of 1,173 "live" cars worldwide an increase of 22 on last year's figures.

The total number of cars on record amounts to 1,884 and we can confirm that of this number, 167 are regarded as being „dead“. The remaining 544 cars are hopefully resting, awaiting discovery and are currently unclassified. Who knows?

The accuracy of the information we hold is not always consistent with the current status of individual vehicles. It is possible that, over the period since the Register was formed, some of the cars listed as "live" may no longer be so.

On our database, cars are given a "live" designation where information has been received since 1991 when the Register gained its independence from the T Register. "Live" does not necessarily mean that the car is roadworthy. It may be awaiting or undergoing restoration.

Distribution of 'Live' Cars
