

Llanerchindda Revisited!

It was great to gather together for a Y event... two years exactly since we last met. The weather was glorious and the company, as always, warm and welcoming.

Sadly, we had three late withdrawals with organisers Chris and Annette Callaghan forced to cancel as Annette had caught Covid. Janet Cairns was also unwell so Neil made the journey on his own. Both ladies are on the mend and we send them our love and best wishes.

We were pleased to welcome three newbies and surprisingly Mike and Sue Silk, who had never been to this event before! So a big welcome to Richard and Bonny Shirley, Jeff and Janet Brodick and Keith and Wendy Powell.

The Llanerchindda Experience

Martin Hadley and his team at Llanerchindda Farm organise excellent experiences, and are well worth contacting by any Register. The arrangements are completely in their hands, so a budding 'arranger' can be safe in the knowledge that beyond advising participants of the contact details, nothing else is required. Martin will do everything else. The setting is superb, with views towards the Brecon Beacons, and the food is wonderful!

Andrew Hadley used his drone to photograph the assembled cars and there are individual shots of each of the participants. It is worthwhile highlighting LDA 506, Peter and Gillie Sharp's YB that was on its first extensive run since a complete rebuild over the last seven years. It looks wonderful and is a testament to the restorers.
